

Managing Payments

MMS has the ability to track and report on all of your programs' payments. Online payments via the Peloton system are automatically added to MMS. Members have access to the system to view, print or email their invoices and payment receipts at any time. Administrators can also view, print and email invoices and payment receipts.

Administrators can also facilitate taking Credit Card Payments in person or over the phone. Pre-Authorized Debits cannot be facilitated by an Administrator as the member will need to electronically agree to the PAD terms.

There are two ways to arrive at an invoice/payment. The first is by search for a person and the second is by searching for a Program.

Find by Person

Step 1: Navigate to the invoice by searching for the person

- The organization Administrator logs into MMS and navigates to the administration site and then selects the "Manage" >> "Payments" >> "Find By Person" menu item.
- Select how you wish to search for the person by adjusting the dropdown and then enter at least 3 characters and click search.
